2015 Public Beach List - Special Rules

The following pages list public beaches with special rules because of resource needs and/or restrictions on harvest due to health concerns. If a beach is not listed, it is open for recreational harvest year-round unless closed by emergency rule, pollution or shellfish safety closures. Not all public beaches have been evaluated by the State Department of Health so the health risk of an unlisted beach many not be known. If you have questions about safety on a beach, call the local county health department or the State Department of Health at (360) 236-3330 or (800) 562-5632. In addition, local health departments may have posted beaches within their jurisdictions that are not listed here - look for warning signs. Refer to the 2015/2016 Sport Fishing Rules pamphlet for more detailed information on daily bag limits, size restrictions and bonus limits. See the 2015/2016 Sport Fishing Rules pamphlet for permanent pollution closures, Marine Area maps, marine preserves and conservation areas; contact the State Department of Health or the WDFW website : https://wdfw.wa.gov/fishing/shellfish/beache for beach locations.
